MEMORANDUM FOR: Chief, Regulations Control Branch

STATINTL FROM :
Chief, Plans and Review Staff, OP

SUBJECT : Proposed Revision of HHB Central
Emergency and Locator System (Job 8666)

STATINTL

1. As previously discussed with a member of your staff, forwarded herewith are further revisions pertaining to the proposed HHB Central Emergency and Locator System.

STATINTL

a. Page 25 - on the last line, revise the date sample to reflect this year, i.e., "791218".

b. Page 30 - delete the last line, "MAGAZINE, Magazine Building" since the Agency no longer has office space in that building.

c. Page 34 - add the word "only" as the first word in line 12, and italicize lines 12 and 13, except for parenthetical enclosure.

d. Page 41 - delete the code "SU" for "Subject (Himself or Herself)", since this code is not used in CEMLOC.

e. Figures 1, 4, 6, 8 and 9 - change the limitation category to "1" since category "2" is no longer used. (In figure 6, changes are needed in two places. In figure 9, changes are needed in two places, plus deletion of the "& not assigned to DDO area" in the balloon instructions pertaining to the Limitation Category Number.)

2. It is requested that 175 extra copies of HHB be printed above and beyond the copy requirements for regular distribution. The added copies will be given to component locator desks, since they seldom receive a handbook as the latter is filed with component regulations, etc. The remaining 75 copies will be used for upcoming skills sessions as class texts.
